## OBJECTIVE

Aspiring web developer seeking to utilize my diverse experiences and skill sets, as well as my natural aptitude for being a detail oriented and caring individual to excel in a role with your company. To do exceptional work that truly makes a difference in the lives of others.

## EXPERIENCE

### OWNER/OPERATOR, OAK CITY DOGS; CARY, NC – 2016-PRESENT

Implemented a business plan and started an LLC. I conduct all aspects of the business: marketing, advertising, invoicing, record keeping and most importantly; dog walking!

### REALTOR/BROKER, CENTURY 21; RALEIGH, NC – 2016-2017

Worked as an independent contractor as the company's 'Relief Agent'. This was a supporting role that encompassed showing homes, scheduling inspections, marketing, assisting with contracts and anything else an agent needed help with.

### REALTOR/BROKER/MANAGER, KELLER WILLIAMS; RALEIGH, NC 2013-2016

Office manager for a busy real estate team with a plethora of responsibilities. Including, but not limited to, finances, contracts, database management, entering new listings into MLS, frequent communication with clients, handling closing details, implemented and maintained a task management system and created action plans for each team member.

### PROJECT MANAGER; NCSU, PLANT PATHOLOGY LAB – 2002-2007

A researcher with 'The Tobacco Genome Initiative' and presenter of the project at the 'Plant & Animal Genome Conference' in San Diego 2006. Produced monthly reports documenting tests and results, executed operations of laboratory equipment, prepared chemical solutions for use in experimental procedures, worked successfully in an environment where attention to detail was crucial in order to obtain accurate results, trained and managed four individuals and achieved significant improvements in their abilities.

## EDUCATION

### NORTH CAROLINA STATE UNIVERSITY – CRIMINOLOGY/SOCIOLOGY, 2004

Graduated Magna cum Laude.

### UNIVERSITY OF NORTH CAROLINA – CODING BOOTCAMP, 2018

A full stack coding bootcamp where I have learned about browser based technologies, databases, server side development, deployment, testing, computer science and much more.

## SKILLS

Excellent verbal and written communicator, self directed worker and learner, attention to detail, work well with diverse personalities, excellent mediator, well organized, reliable and timely. Versed in HTML, CSS, JavaScript, jQuery, Bootstrap, Handlebars, Firebase, React.js, Heroku, Git, MySQL, MongoDB, Node.js, Express, Mocha and Chai.
